

ARMAN CHRISTIAN Q. MENDOZA

Tanza, Cavite, Philippines | acq.mendoza@gmail.com | +63 917 859 0236

Portfolio: <https://acq-mendoza.github.io/acqmendoza.ai>

PROFESSIONAL SUMMARY

Certified AI Automation Specialist with expertise in designing, building, and deploying end-to-end automated workflows and intelligent AI agents using low-code/no-code platforms, including n8n, Zapier, and Make.com. Proficient in bridging business software via REST APIs, Webhooks, and custom JSON transformations. Skilled in prompt engineering, LLM integration (OpenAI, Anthropic, Gemini), and multi-agent system architecture. Passionate about transforming repetitive tasks into automated systems, optimizing operational efficiency, and leveraging modern AI technologies to solve complex organizational challenges.

CORE COMPETENCIES

- **Automation & Integration:** n8n, Make.com, Zapier, Webhooks, REST APIs, JSON Data Parsing, HTTP Requests
- **AI & Agentic Systems:** AI Agent Design, Multi-Agent Architecture, LLM Integrations, Custom GPTs
- **Prompt Engineering & Logic:** System Prompts, Context Window Management, Conditional Logic, Error Handling
- **Data Management & Analytics:** Advanced Excel Data Analytics, Data Transformation, Database Synchronization
- **System Optimization:** Process Mapping, Workflow Auditing, Bottleneck Analysis, Technical Documentation

TECHNICAL SKILLS

- **Automation & Workflow Platforms:** n8n, Make.com, Zapier
- **AI Models & Tools:** OpenAI (ChatGPT), Anthropic (Claude), Google Gemini, Custom GPTs
- **Integration & Developer Tools:** REST APIs, Webhooks, HTTP Requests, Custom JSON, GitHub Pages
- **Data Analytics & Productivity Software:** Microsoft Excel (Advanced Analytics), Google Workspace, Google Cloud Platform

AUTOMATION & AI PROJECTS

Autonomous AI Agent & Workflow Builder

- Architected end-to-end automated solutions using n8n, Make.com, and Zapier to sync real-time data across CRM, communication, and database platforms.

- Integrated Large Language Model (LLM) APIs into low-code platforms to auto-generate context-aware email responses, summarize dense documents, and route tickets automatically.
- Implemented robust error-handling and fallback logic within complex multi-branch scenarios to maintain 99.9% workflow execution success rates.
- Designed custom JSON structures and HTTP requests to connect tools lacking native integrations, ensuring seamless cross-system communication.

Digital Transformation & Process Optimization

- Conducted system audits to map out manual enterprise tasks and converted them into automated, trigger-based workflows.
- Applied prompt engineering methodologies to structure system prompts for customized AI bots, maximizing task compliance and reducing hallucination risks.
- Created technical documentation, workflow flowcharts, and system architecture guides for deployed automation pipelines.

EDUCATION

Bachelor of Science | *Polytechnic University of the Philippines (2005 – 2009)*

PROFESSIONAL DEVELOPMENT

- **n8n Academy: Integrations: APIs & Connected Workflows** – 2026
- **n8n Academy: Essentials: Your First Workflows** – 2026
- **Zapier Academy: Building AI Agents** – 2026
- **Zapier Academy: Building Intermediate Zaps** – 2026
- **Zapier Academy: Building Basic Zaps** – 2026
- **n8n Course: No Code AI Agent Builder** – 2025
- **Introduction to Digital Transformation with Google Cloud** – 2025
- **Professional Diploma of the Executive Assistant** – 2025
- **Microsoft Excel for Business Analytics Workshop** – 2009
